

OS [Lec-2]

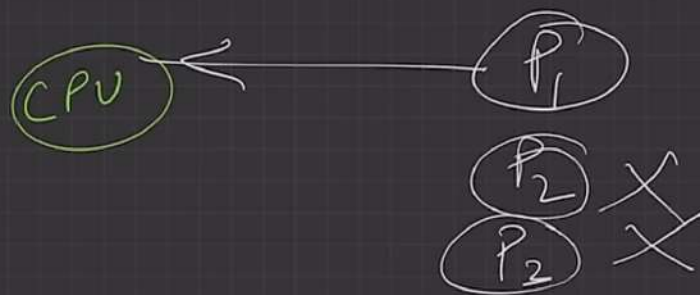

Goals 1- ① Maximum CPU utilization

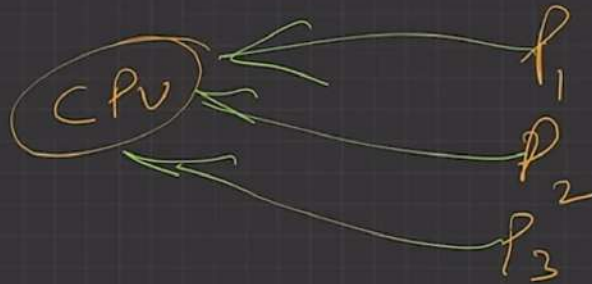

OS [Lec-2]

Original

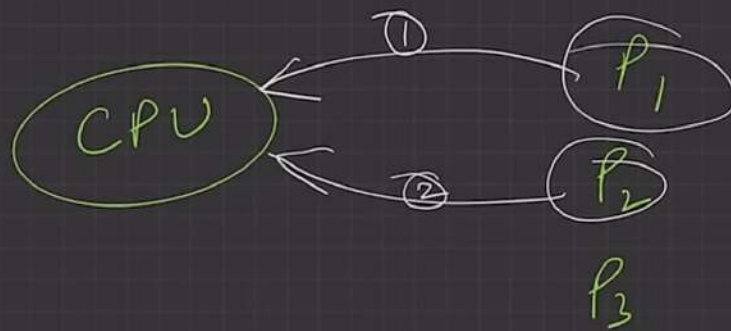

- Goals 1-
- ① Maximum CPU utilization
 - ② Process starvation X

Goals 1- ① Maximum CPU utilization
② Process starvation X
③ High priority execution

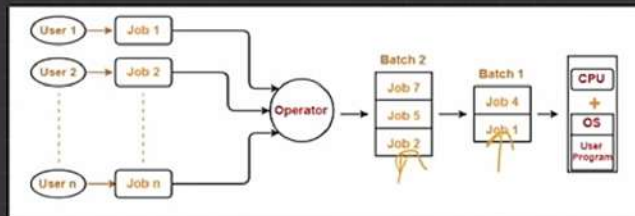

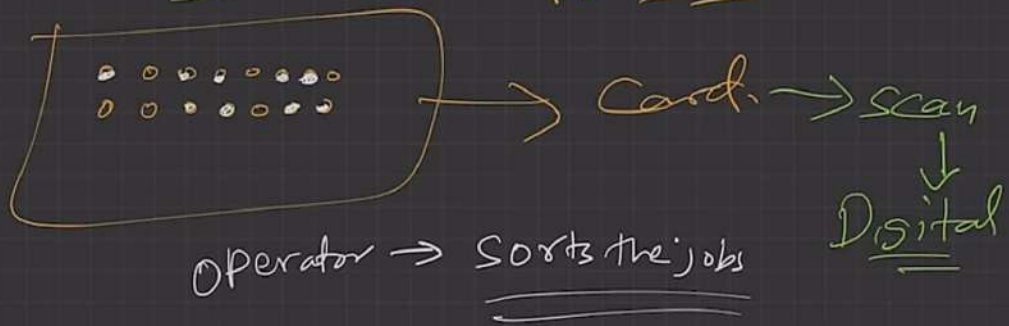

Types of OS : ① Single process OS :-

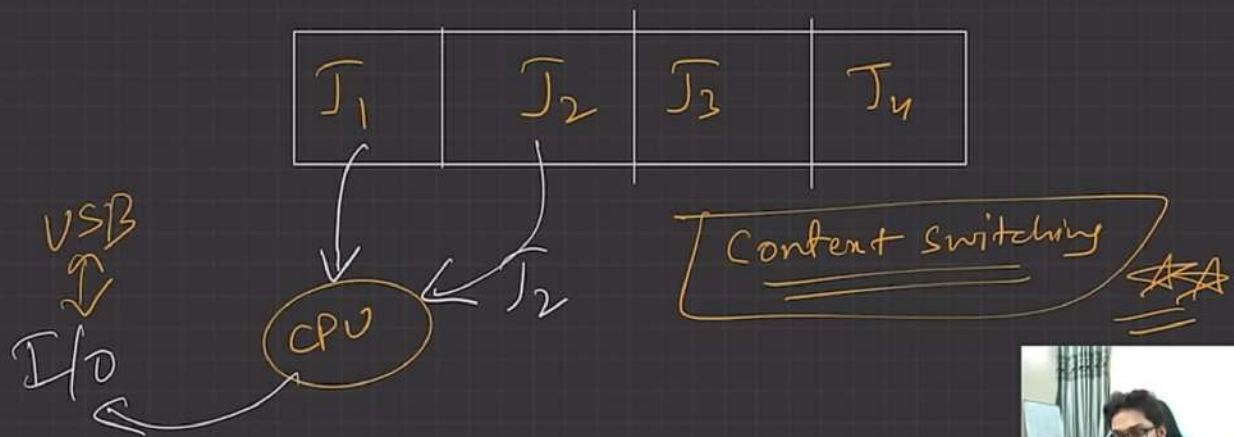

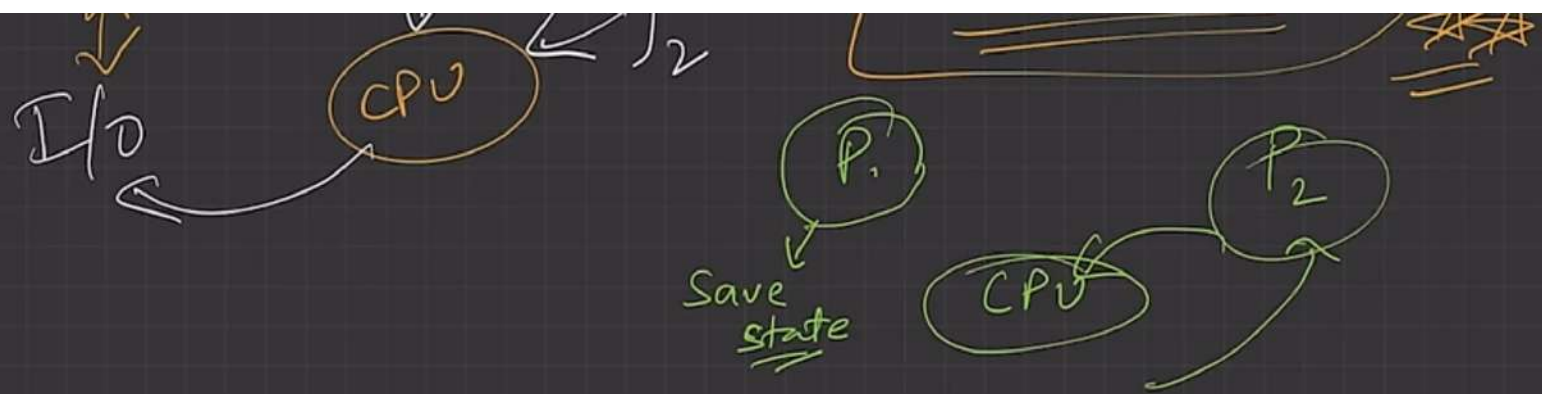

Eg:- MS DOS →

③ Multi programming OS :-
→ single CPU

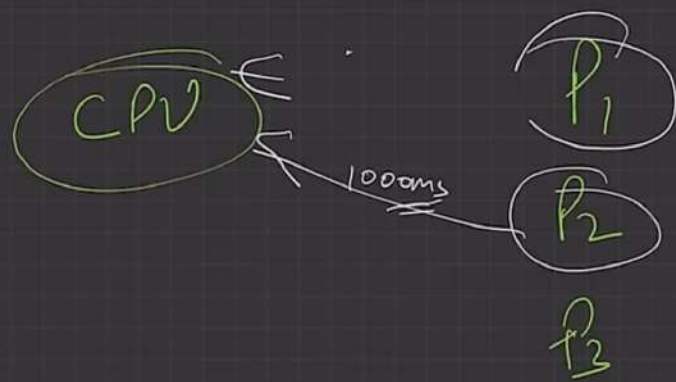

PCB $\rightarrow$ Process Control Block

(4) Multi Tasking OS

- single CPU.
- context switching
- Real Time sharing

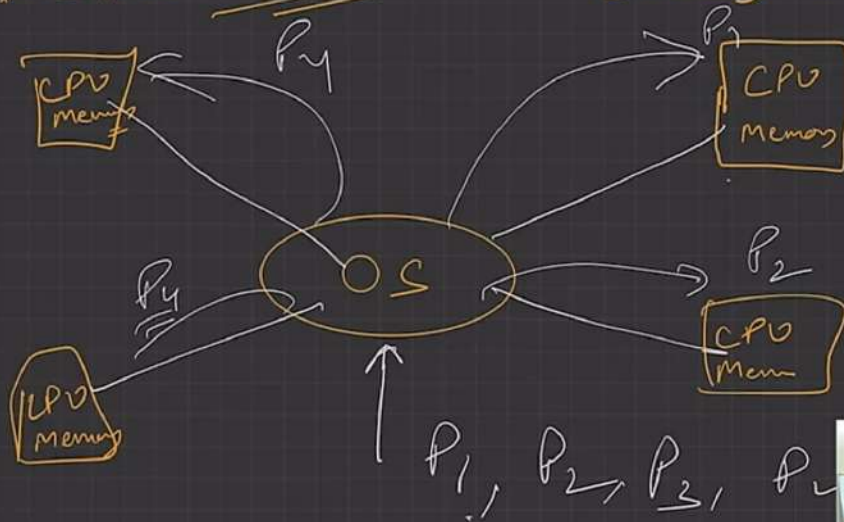

⑤

Mult processing OS :-

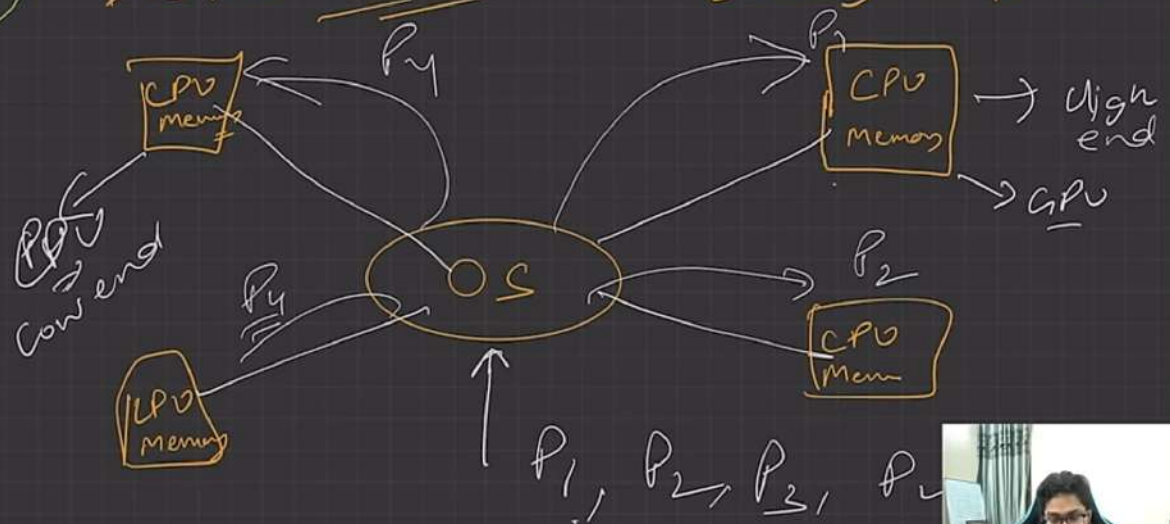

- Context switching ✓
- Time sharing ✓
- $CPU \geq 1$

⑥ Distributed OS - Loosely Coupled

⑥ Distributed OS - Loosely Coupled

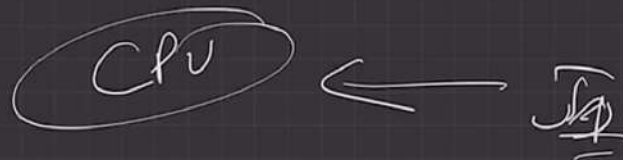

⑦ RTOS - Real Time OS

→ Error chance XX

→ Real time ✓

⇒ ATC

→ Industrial applications

① Single Procen → MS DOS

② Batch proceing → ATLAS

③ Multi prgmming → THE

④ Multitasking → • CTSS

⑤ Multi proceing → windows

⑥ Disturbed :

⑦ RTOS :
